FLOORING

SWEET CHESTNUT FLOORING

Wood is fundamental in lifestyle and professional projects. The pleasure of walking on wood is only comparable to walking on the sand of the beach, on the grass ... nature at your feet. Wood provides a pleasant design and decoration, soft touch and natural warmth. Genuine textures in any space. The sound you will hear when you walk on this flooring is the expression of authentic wood. The choice of flooring for your environment will reflect your personality.

! Packaging: five planks per bundle
